

Don't let waste ever bottle up.

Watertec's Bottle Trap is engineered to serve as the perfect barrier between your bathroom and unhygienic elements. Once installed, it ensures that there is no blockage in the wash basin pipe due to wastewater and dirt. It diffuses obnoxious gases and prevents the same from flowing back into your bathroom.

Another solution offered by the Bottle Trap is that it acts as a sealant against pests. This means that once you have it set in place, you can say goodbye to cockroaches and enjoy a sanitary and pleasant bathroom experience. This product has also been designed for easy installation and fuss-free maintenance.

Bottle Trap
